

Model 1025MT | NeoTech™ Series Headset

The NeoTech 1025MT is an attractively-priced, mainstream, mid-weight headset for general-purpose classroom usage with mobile devices. The 1025MT delivers performance at a cost-effective price for 1:1 learning, assessment testing and more. Its audio playback is calibrated to enhance the tonal range of the human voice in language learning and its noise-reducing boom microphone captures a student's verbal response - not their neighbors, making it ideal for language learning, library uses and in computer labs. Compatible with tablets, smartphones, Chromebooks, laptop and desktop PCs & Macs, it provides the versatility you need for BOYD and school-issued device requirements in the classroom.

Durable CaliTuff™ Cord

The 1025MT features a highly durable CaliTuff™ cord made of braided, PVC-jacketed material that resists chewing and cutting. The CaliTuff™ cord design includes a reinforced earcup entry point that resists stress separation and a tethered Velcro strap that provides cable management for easy storage.

Hygienic Packaging

The 1025MT comes in a heavy gauge plastic zip lock bag with personalized labeling area that promotes classroom hygiene by isolating head lice while providing utility for storage when not in use.

Specifications

Speaker 40mm Mylar Magnet Cobalt 25 ohm ± 15 % Impedance

Carton 40 pieces, Gross 15 lbs,

17" x 19" x 17" carton dimensions

3-Year Institutional Warranty

Califone's 3-year institutional warranty covers school usage, unlike consumer grade product warranties that are often voided when applied to damage sustained in classroom settings. This added level of protection helps stretch your budget by covering replacement costs if necessary in your particular situation.

Model **1025MT** | NeoTech™ Series Headset

- 1. Padded headband comfortable enough for extended wear
