

The **Kestrel Tab-Tension 3** is an electric floor-rising projection screen that is an attractive centerpiece for home theater or high-level conference rooms. Its tab-tension design maintains a flat and taut front projection surface to provide a ripple-free image suitable for ultra-short throw projectors. The Kestrel Tab-Tension 3 utilizes a "scissor-backed" cross risers to raise and lower the screen's material. It is the ideal alternative solution for environments where wall/ceiling installations are not practical.

Screen Material

- CineWhite® X - 1.2 Gain front projection material for rooms with controlled lighting
- Ultra-wide viewing angle allows to see clear picture of equal brightness from any angle
- ISF Certified for accurate color reproduction – An Industry standard for high-fidelity video display systems
- Black-backing eliminates light penetration to prevent picture degradation
- Standard 4-side black masking borders absorb projector overshoot while enhancing visual contrast
- Compatible with ultra/short, and standard (long) throw projectors
- Available in the following diagonal sizes: 122", 133" and 150" in 16:9 aspect ratio

Design & Operation

- Rises and lowers by our motorized precision "scissor-backed" cross spring risers
- Heavy-duty aluminum black housing is moisture resistant
- Free-standing projector screen appears and disappears from a touch of a button
- Built-in Infrared and Radio Frequency receivers
- Includes Radio Frequency (RF) and Infrared remote controls
- 12v trigger synchronizes the screen's UP/DOWN operation with the projector's power cycle
- Tubular motor allows swift operation with a superior weight tolerance and operational lifespan
- 2-Year / 3-Year ENR-G Manufacturer's Warranty by Elite Screens, an ISO9001 manufacturer since 2004
