

LG gram SuperSlim

Unbelievably Thin, Uncompromisingly Light

LG gram SuperSlim with OLED Display

15Z90RT

reddot winner 2023

- Windows 11 Pro Operating System
- 15.6-inch Large OLED Display with Anti-glare Low Reflection Panel
- True Black with 1M:1 Contrast Ratio
- 13th Gen Intel® Core™ Processor
- Dolby Atmos & Smart Amp
- 60 Wh Long-lasting Battery

Practical Design Optimized for Portability

0.5-inch Slim Body & 2.18 lb. Ultra-lightweight | 60Wh High-capacity Battery | Mini Adapter

Solid, sturdy, and backed by military-grade durability testing¹, LG gram SuperSlim is a powerhouse for demanding tasks. Its ultra slim 0.4-inch body weighs a mere 2.18 pounds, making it ultra-thin and compact enough to fit on your lap on a train or plane for those consulting with clients or creating projects on the move. What's more, its ultra-lightweight casing features a high capacity 60W battery, so users can work virtually anywhere without having to constantly worry about charging. It also comes with a portable Mini Adapter that packs up easily to minimize disruption on those long business trips.

Vivid Viewing with Extraordinary Detail

OLED Display with Anti-glare Low Reflection Panel | 1M:1 Contrast Ratio | DCI-P3 100% | 0.2ms Response Time

Featuring an OLED Display with Anti-glare Low Reflection, LG gram SuperSlim delivers captivating image quality with remarkable detail in brightly lit or darkened environments, making it ideal for editing media-rich documents and rendering video content. In addition, its astonishing 1M:1 contrast ratio brings out perfect blacks as they were meant to be seen, while its 100% DCI-P3 color range ensures optimal expression when showcasing creative content for true-to-life viewing. And with ultra-fast 0.2ms response times, users are granted fluid viewing when web conferencing, scrolling, or simply streaming content.

Multitasking Powerhouse

13th Gen Intel® Core™ Processor | LPDDR5 6000 MHz RAM | Gen 4 NVMe Dual SSD | Dolby Atmos & Smart Amp

Bundled with the 13th Gen Intel® Core™ processor, LG gram SuperSlim is robust enough to accelerate performance in the most intensive work environments, whether documenting intensive demands of any workstation, from documenting to content creation and streaming. Add to this both LPDDR5 memory and the 4th generation NVME SSD, which allow users to handle more sizeable workloads and manage multiple tasks with supreme efficiency. Lastly, its built-in Dolby Atmos speaker system and Smart Amp provide rich, full three-dimensional sound during video conferencing or streaming.
