

Nighthawk® Mobile Hotspot Cradle

Wired Connectivity for Hotspots

The Nighthawk Mobile Hotspot Cradle offers a seamless transition from a wired internet connection to a 5G wireless connection in case of downtime or instability. It allows for wired connectivity for up to 2 devices and can support more devices when connected to a NETGEAR switch.

Key Features

- **Dual GigE LAN Ports**—Allow for wired connectivity for up to 2 devices and can support more devices when connected to a NETGEAR switch.
- **Active Cooling Fan**—Ensures continuous operation (24/7) of M3/M6/M7 devices and provides peace of mind performance will not be degraded.
- **External Antenna Support**—Boosts 5G signal reach for improved coverage. Users can attach an external antenna to enhance and ensure a strong and reliable connection. Features allocated slots for feeding antenna cables, making the process convenient.
- **Failover**—Enables seamless transition from a primary fixed internet connection to a 5G wireless connection in case of downtime or instability in the primary connection. Ensures critical applications stay connected even if the primary internet connection fails.

Technical Specifications

- Ports
 - One (1) USB 3.1 Type C female
 - One (1) USB 3.1 Type C male
 - Two (2) 1GbE RJ45 Ports
- Power delivery 2.0 Passthrough
- 1000/100/10 Mbps auto-negotiation
- Plug-and-Play
- Portable solution
- Cooling fan
- External antenna cable passthrough holes
- Status LEDs (Power/LAN/WAN)

Compatibility

- Compatible with M3, M6, M6 Pro, M7, M7 Pro, and M7 Ultra

Package Contents

- Nighthawk Mobile Hotspot Cradle (MD200)

System Requirements

- Available USB 3.1 Type-C port
- Windows XP/Vista/7/8/10/11
- Mac OS 10.5 and above, or Linux

Physical Specifications

- Dimensions: 107.5 x 112 x 80 mm (4.23 x 4.41 x 3.15 in)
- Weight: 248 g (.55 lb)
