

Desk-Mount Triple Monitor Arm - Articulating

Product ID: ARMTRIO

Create the ultimate ergonomic workstation and free up desk space with this desk-mount triple-monitor arm. You can set up three computer monitors (each up to 24") and create a surround setup to maximize productivity.

Greater Comfort and Productivity

Enhance your productivity and work in comfort with a multi-screen setup. The triple-monitor mount supports three displays, each 13" to 24" in size. Adjust the position of your monitors with 360° rotation and + 30° / -30° tilt for each monitor.

Choose from landscape or portrait screen rotation to customize your workspace. You can set up three displays in landscape position to create a curved surround effect or 'cockpit style' for comfortable viewing. This setup is ideal for editing videos or photos or working with multiple documents. For applications such as web design or coding, you may choose an alternate setup, for example with the center monitor in landscape mode and the outside monitors in portrait position.

Tool-less Height Adjustment

Adjust the display height without tools. You simply turn the adjustment knob to adjust the monitor height, keeping all three monitors at the same level.

Robust Steel Construction

Made of strong and durable steel, the triple VESA mount monitor stand securely supports three separate computer monitors up to 24", with a weight capacity of up to 17.6 lb. or 8 kg per monitor. The three-monitor stand works with VESA mount monitors (75x75, 100x100).

Easy Installation

The triple-monitor arm is easy to set up using the included desk clamp or grommet mount, and comes with cable management clips.

ARMTRIO is backed by a StarTech.com 5-year warranty and free lifetime technical support.

Certifications, Reports and Compatibility

Applications

- Improve workstation ergonomics in commercial, business and home-office environments
- Create a three-monitor setup using the desk mount or grommet mount
- Ideal for customer service, financial analysis, web design, gaming, photo editing and many other applications

Features

- Save space by mounting three VESA mount monitors up to 24" each
- Articulating arms with micro adjustment let you create a surround effect
- Solid-steel construction supports weight capacity of 17.6 lb. / 8 kg per monitor
- Easy height adjustment without tools
- Ideal viewing with 360 degree rotation and +30/-30 degree tilt
