

USB-A to USB-B Antibacterial Cable (M/M), USB 2.0, White, 6 ft.

MODEL NUMBER: **U022AB-006-WH**

USB cable with antibacterial material connects low- and high-speed devices to your computer while protecting you from bacteria.

Features

Durable USB-A to USB-B Cable Transfers Important Data at USB 2.0 Speeds

This USB cable connects a printer, scanner, hub or other USB-B peripheral to the USB-A port on your computer or laptop. It transfers data at USB 2.0 speeds up to 480 Mbps for use with low-speed and high-speed devices, including multimedia applications. The cable is also backward compatible with earlier USB generations.

Provides Extra Protection Against Certain Bacteria

The molded connectors and PVC jacket are constructed using an antibacterial material that is 99.9% effective in inhibiting Escherichia coli (E. coli) and Staphylococcus aureus (staph). This added protection makes this cable an ideal solution for medical facilities, schools, businesses, restaurants/kitchens and anywhere else that needs extra protection against bacteria.

Premium Construction for Superior Performance

Manufactured with twisted 28 AWG data lines and 24 AWG power lines, the U022AB-006-WH also features foil and braid shielding that ensures reliable, error-free signal quality and protection from EMI/RFI line noise that can distort or destroy data. Gold-plated connectors provide maximum conductivity and minimum data loss to guarantee a clear transmission free of interference. Integral strain relief gives the cable extra flexibility, reduces stress and helps the cable move freely without cracking or breaking loose from the connector.

White Jacket Helps Avoid Misidentification That Can Cause Costly Downtime

The cable has a white PVC jacket, which is easy to identify quickly in a crowded computer or hub and helps prevent the cable from becoming accidentally disconnected.

Highlights

- Supports USB 2.0 speeds up to 480 Mbps to ensure efficient data transfers
- Constructed with antibacterial material proven 99.9% effective in inhibiting E. coli and staph
- Foil and braid shielding protects against EMI/RFI noise that can distort or destroy data
- Gold-plated connectors provide maximum conductivity and minimum data loss
- White jacket permits fast, easy identification in a crowded hub or computer

Applications

- Connect a computer or laptop and an USB-B peripheral in a home or office network
- Provide extra protection against bacteria to give cable installers and IT personnel peace of mind during installation

Package Includes

U022AB-006-WH USB-A to USB-B Antibacterial Cable (M/M), White, 6 ft.

Specifications

OVERVIEW	
UPC Code	037332260611
Technology	USB; USB 2.0 (High Speed)
INPUT	

Cable Length (ft.)	6
Cable Length (m)	1.8
Cable Length (in.)	72
PHYSICAL	
Cable Jacket Rating	VW-1
Cable Jacket Type	PVC
Cable Outer Diameter (OD)	4.5MM
Color	White
Material of Construction	PVC
Unit Packaging Type	Polybag
Wire Gauge (AWG)	28/24
ENVIRONMENTAL	
Operating Temperature Range	14 to 122 F (-10 to 50 C)
Storage Temperature Range	5 to 140 F (-15 to 60 C)
Operating Humidity Range	0% to 90% RH, Non-Condensing
Storage Humidity Range	0% to 90% RH, Non-Condensing
CONNECTIONS	
Side A - Connector 1	USB A (MALE)
Side B - Connector 1	USB B (MALE)
Connector Plating	Gold
Contact Plating	Gold
FEATURES & SPECIFICATIONS	
USB Specification	USB 2.0 (up to 480 Mbps)
STANDARDS & COMPLIANCE	
Certifications	Tested to RoHS, REACH
WARRANTY	
Product Warranty Period (Worldwide)	Lifetime limited warranty
