### Features

#### Hospital-Grade Extension Cord is a Safe Solution for Medical Facilities

This Safe-IT™ hospital-grade power cord is designed for computers, mobile carts, printers, scanners, monitors and other compatible hospital equipment within a healthcare facility. It features a NEMA 5-15R-HG end for connecting to a device and a NEMA 5-15P-HG plug for connecting to a hospital-grade AC power source located outside patient care vicinities.
