

ERGOTRON®

YES36 Charging Cart for Mini-laptops

Highlights

- **Charge, store and transport up to 36 devices.**
- Perfect for Chromebooks™, Netbooks, Surface Pro and MacBook Air® — devices up to 14".
- Adjust the interior to fit your devices: raise and lower the Lift-N-Set Shelves and remove/adjust the Pop-N-Go Bay Dividers to create the right bay size.
- Compact design maneuvers easily through crowded hallways and into tight spaces.
- Devices stay secure with keyed locks on each door, complete with brackets for your own padlock and a two-point locking system.
- Easy to steer with 4" dual-wheel rubber casters (2 directional-lock for easy steering, 2 total-lock to keep it in place) and a wide ergonomic handle.

Ergotron says "YES!" to all your devices — charge and store any mix of up to 36 Chromebooks, Netbooks, and Tablets.

With YES Carts, one size fits all Chromebooks up to a 13" screen — even some 14"! Set the cart's bay width and shelf height for your device, then reconfigure when it's time for new devices. Mix and match with tablets, e-Readers, and hand-helds for even more flexibility. The YES Cart truly is the last cart you'll ever buy.

Each **Lift-N-Set Shelf** can be repositioned to create larger or smaller vertical spaces to fit your devices.

Pop-N-Go Bay Dividers are made of tough ABS polymer and can be moved to create the perfect bay width for your devices.

Mix and match devices — the interior is yours to configure.

Cable bins measure 4.5" deep — plenty of room for power bricks and excess cord length.

YES36 Charging Cart for Mini-laptops

The cable channels on top of each bay divider are easy to reach, easy to see and easy to wire.

Doors, side panels and interior panels are ventilated so that devices stay cool.

Integrated keyed locks have brackets for your own padlock.

Devices are secure with a 2-point locking system on each door.

The Comfort Edge top surface has a lip to prevent items from rolling off.

A wide ergonomic handle makes each cart easy to steer.

4" locking rubber casters roll easily over uneven surfaces. Two are directional lock (staying in a straight line while the other two swivel for steering) for optimal control when maneuvering your cart down crowded hallways.

Features Ergotron's patented PowerShuttle® power management technology, the system that efficiently charges up to 40% faster than a standard round-robin system.

We say "YES!" to all your devices

Chromebooks • Netbooks • Tablets

YES36 Charging Cart for Mini-laptops

(grey metallic & polar white)

Part Numbers	Standard — US/CA/MX YESMOR2GMPW4 TAA Compliant — US/CA/MX YESMUSGMPW4
Compatible Devices	Tablets, Chromebook, and devices of any thickness with ≤ 14" LCD size <i>(Verify device dimensions for compatibility)</i>
Product Includes	36 adjustable bay dividers with integrated cable channels, 3 adjustable-height shelves, three 12-outlet power strips, three 12-unit brick storage trays, four 4" dual-wheel rubber casters (2 directional lock for easy steering, 2 total lock to keep it in place), 2 external auxiliary outlets, power ON/OFF switch, front and back locking door latches w/ padlock bracket and two-point lock mechanism, 2 keys, contoured top shelf to prevent items from rolling off, and 14' long (3.8 m) power cord stored on a cord wrap
