Featuring the Intelligent Charging System

Efficiency on a Budget

- Utilize the powerful JAR Intelligent Charging System with a compact, lightweight storage solution that **won't break the bank.**
- Easy to use, dependable charging and sturdy all steel construction make this cart an **economical solution for large and small class sizes alike.**

Easy to Transport

- Secures and transports up to 40 devices with ease. **Weights in at over 100 lbs less than other carts.**
- Features top and bottom handles and 5" industrial grade casters for easy maneuverability over different floor surfaces and thresholds.

Best in Class Charging

- Power sensors and charging logic** deliver the fastest possible charge and you never have to worry about tripping a circuit breaker.
- LED status indicators** tell you how long the devices take to charge, which devices are receiving power, and when charging is complete.

Never Buy Another Charging System

Having first developed the Intelligent Charging System seven years ago, JAR Systems is the industry pioneer in intelligent charging of mobile devices. Our Intelligent Charging System has been developed to be both powerful and easy to use. Just press one button to start charging!

Lenovo Thinkpad 11" Chromebooks

An economical solution for large and small class sizes alike.

Easy to Wire

Streamlined cable management scheme allows for a quick and easy set-up. A/C adapters are stowed away beneath the shelf, which is lockable to prevent removal of cables. The cart supports both in-line and outlet chargers.

Power for Peripherals

Auxiliary power outlet allows you to connect and control power to peripherals alongside the devices. Removable dividers allow for clear shelf space when the cart is not full to 40 device capacity.

Secure 3-Point Locking

3-point locking mechanism with steel swing handle and key lock keep devices protected.

Smallest Rolling Footprint

Only 26" W x 20" D, so it will not take up a lot of space. With 5" industrial grade casters its easy to move and steer.
