Ultra-Light INTELLIGENT CARTS

Charge, secure, and transport
15, 30, or 40 Devices up to 14"

Now Starting At \$995

Efficiency on a Budget

- Our upgradable configurations allow you to get only what you need now, but still have the **flexibility to add on in the future** if your needs change. See back for more details.
- Easy to use, dependable charging and sturdy all-steel construction make these carts **economical solutions for large and small class sizes alike.**

Easy to Transport

- Secure and transport 15, 30, or 40 devices with ease. **Ultra-light carts can weigh up to 100 lbs less than other types of carts.**
- Features top and bottom handles and 5" industrial grade casters for easy maneuverability over different floor surfaces and thresholds.
Great for bringing tech to modular classrooms.

Industry Leading Charging

- **Power sensors and charging logic** deliver the fastest possible charge and you never have to worry about overloading a circuit .
- **LED status indicators** tell you how long the devices take to charge, which devices are receiving power, and when charging is complete.

Featuring: The Intelligent Charging System

Five-Year Warranty *See Back >>*

Carts ship fully assembled and ready for loading.

Flexible Option For All Environments

If you have a mixed device landscape or are transitioning devices, the Ultra-Light Cart is a great solution, **comfortably fitting devices up to 12"H x 1"W x 13.5"D**. The Intelligent Charging System is capable of cart-free charging as well as integrating with most carts. The system can be removed from the cart and used as a charging station or used with a different cart at any time. Additional charging systems can also be purchased separately.

Never Buy Another Charging System

Having first developed the Intelligent Charging System seven years ago, JAR Systems is the industry pioneer in intelligent charging of mobile devices. Our Intelligent Charging System has been developed to be both powerful and easy to use.

Cut Down on Wiring Time

Streamlined cable management scheme allows for easy set-up. A/C adapters are stowed away beneath the shelf, which is lockable to prevent removal of cables. The cart supports both in-line and outlet chargers.

Secure 3-Point Locking

3-point locking mechanism with swing handle and key lock keep devices protected. Optional wall lock solution provides you with additional security for your cart by anchoring the cart to the wall, effectively preventing relocation. It also allows for uninterrupted availability of the devices while the lock is in place.

Five-Year Warranty

Comes standard with our five-year warranty that covers the entire cart including the Intelligent Charging System—longer than average electrical warranties.
