Picture perfect sharing everytime.

The latest in the groundbreaking line of DualView cameras, the DV300F Samsung SMART Camera lets you put yourself in a scene, capture it, and instantly share it with friends. Using built-in Wifi and the 1.5" front-side LCD screen, perfectly frame self-portraits anywhere and then upload to social networking sites, right from the camera. Plus, you can easily transfer all of your memories to your computer, smartphone, or Microsoft Skydrive with the touch of a button. That's the wonder of Samsung.

SMART Connection

Your best portraits instantly shared.

SMART Capture

Take perfectly framed self-portraits using the front LCD.

SMART Creativity

Intuitive photo shooting and editing modes right from the camera.

SMART Controls

Easier to take, store and share pictures.

SAMSUNG

SMART Connection

Your best portraits instantly shared.

- Send quality photos from the party directly from the camera via email to social networks like Facebook
- Easily connect and share from any public WiFi hotspot using the camera's log-in browser
- Upload and store cool images and video directly from the camera to Microsoft Skydrive
- Access your uploaded content on supported connected devices via AllShare Play

SMART Capture

Take perfectly framed self-portraits using the front LCD.

- 1.5" front LCD screen lets you put yourself into great shots
- 16 MP High Performance CCD Sensor
- Self Shot, Couples Shot, Jump Shot, and Children's Mode ensure you don't miss a great pic
- 720p HD Movie Recording

SMART Creativity

Intuitive photo shooting and editing modes right from the camera.

- Magic Frame has 12 different background templates that let you edit a portrait to look like an antique, put your face on the moon, and more
- Funny Face allows you to bend, stretch and warp your friend faces
- Live Panorama lets you aim, hold the shutter button down, and pan to capture the perfect scene with everyone in it

SMART Controls

Easier to take, store and share pictures.

- Use Auto Backup to transfer and store your photos on your PC with the touch of a button
- Connect with Remote Viewfinder to operate your camera directly from your smartphone
- Smartphone Link allows you to store and access your camera photos on your phone or tablet
- Enjoy the ultimate picture and video slideshow on your home TV with TV Link
